National team selection procedure

1. Selection process for 2019

Once we became aware that some of our pupils are interested in participation in IYPT'19 we sent out an open call to a number of high schools who had high achievements in national science competitions. Probably due to the fact that this Tournament is unknown in Macedonia and/or the small amount of time for preparation, we got no response and as a result our team shall be composed by the pupils who proposed the idea.

2. Selection process planned for 2020

A. Creation of an official webpage and open call

We intend to create an official webpage for YPT – Macedonia in Sep 2019. An open call will be sent to all high schools and promoted through various channels.

B. Individual stage

Pupils from all high schools in Macedonia will be invited to participate in this round by sending a solution to one of the IYPT'20 problems. The best performers shall be invited to form teams and to participate in the Physics Fights of the National Tournament.

C. National Tournament

The Tournament will follow the lines of IYPT but with fewer Selective Fights and without using all IYPT'20 problems. It will be organized as a non-profit event.

We intend to invite Physics teachers as well as members of our Physicists' Society and academia to serve as Jurors.
